FAIZURRAHMAN

Aspiring Software Engineer | B.Tech Electrical & Computer Engineering

faizurbtech@gmail.com | +91 8052914779 | LinkedIn | GitHub | Portfolio | LeetCode

PROFILE SUMMARY

B.Tech Electrical & Computer Engineering student at Jamia Millia Islamia and full-stack developer with hands-on MERN experience. Shipped N2MA, a production e-commerce platform, during a Web Development internship, and built LoopTalk, a real-time language-exchange app with chat and video calling. Skilled in React, Node.js, REST APIs, MongoDB and JWT authentication, with regular DSA practice on LeetCode and an AWS Campus Ambassador role. Seeking a Software Development internship / placement to build production-grade software.

TECHNICAL SKILLS

- **Languages:** JavaScript, C/C++, HTML5, CSS3
- **Frontend:** React.js, Redux Toolkit, Tailwind CSS , React Router
- **Backend:** Node.js, Express.js, REST API design, JWT Authentication
- **Database & Cloud: SQL ,** MongoDB (Mongoose), Cloudinary, DBMS fundamentals
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, Postman , AWS (Cloud Fundamentals)
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming (OOPs), DBMS (LeetCode practitioner)

EXPERIENCE

Web Development Intern — MNMA General Trading O.P.C – LLC, Abu Dhabi, UAE

June 2026 – July 2026

- Completed a full-stack web development internship building N2MA, a production e-commerce website, from initial development through deployment.
- Delivered assigned tasks and project milestones professionally, earning a certificate of completion for successfully fulfilling all internship requirements.

Campus Ambassador — Amazon Web Services (AWS)

August 2026 – Present

- Selected as AWS Campus Ambassador to represent and promote cloud computing initiatives on campus.
- Drive student engagement with AWS technologies through outreach, events, and peer learning sessions, strengthening cloud fundamentals alongside coursework.

PROJECTS

N2MA — Full-Stack E-Commerce Platform Live Site · Source Code

- Built a production e-commerce web app end-to-end using the MERN stack (MongoDB, Express.js, React, Node.js), deployed on Vercel.
- Implemented secure user authentication and authorization with JWT and bcrypt-hashed passwords.
- Designed RESTful APIs for products, orders, and users; integrated PayPal for online payments and Cloudinary for image storage/upload via Multer.
- Built a responsive, animated UI with React, Redux Toolkit for state management, Tailwind CSS, and Framer Motion.
- Added multi-language support using i18next and integrated an AI chat widget for customer support.

LoopTalk — Real-Time Language Exchange & Chat Platform Live Site · Source Code

- Built a full-stack MERN language-exchange app connecting learners with language partners; deployed on Vercel.
- Implemented JWT auth with bcrypt hashing, protected API middleware and onboarding-aware route guards.
- Designed a friend-request system (send/accept/reject) with a unique index against duplicates, and a recommendation engine matching users by native/learning-language swap with city fallback.
- Integrated Stream Chat for real-time messaging and Stream Video SDK for video calls via shareable links.
- Built a responsive UI with React 19, Vite, Tailwind CSS, DaisyUI (32 themes via Zustand) and React Router.

EDUCATION

B.Tech in Electrical & Computer Engineering — Jamia Millia Islamia, New Delhi

Expected graduation: 2028 | CGPA: 7.65/10 (Sem III–IV: 8.41, 8.40)
